

Telcentris® Partner Program

VOXOX BY TELCENTRIS  YOUR BUSINESS. UNIFIED.™

Get 20% commissions, with no annual revenue commitment and evergreen provisions in all contracts. Join today, and be part of the team.

Founded in 2006, Telcentris is an innovator and global provider of advanced unified communications solutions and hosted IP phone services. Telcentris built and operates a massively scalable service delivery platform in the cloud that provides next generation solutions for business, consumer and wholesale markets.

The company offers the most comprehensive, fully hosted contact center in the industry, as well as hosted IP phone services, SIP Trunking, and more. All of Telcentris' solutions are powered by its unique and powerful platform that gives organizations the backbone and flexibility to meet their most challenging needs.

In addition to operating its own IP network, Telcentris is certified as a national CLEC (competitive local exchange network) which enables the company to provide more secure, reliable and cost effective end-to-end solutions than those offered by other providers.

As the premier provider of Hosted IP-PBX, SIP Trunking and VoIP solutions, our services meet the needs of businesses ranging in size from five to 500 phone lines, and more. Customers can take advantage of the Telcentris feature-rich Hosted IP-PBX system without the need for PBX equipment at the customer's location. Telcentris has partnered with some of the world's leading hardware manufacturers such as Polycom, Cisco and Edgewater to create a state-of-the-art, high performance, guaranteed quality VoIP service.

At Telcentris, we value our partners and recognize that they are vital to our continued success. We are committed to developing long-term and mutually beneficial partnerships. Because of that, we offer a highly competitive Channel Partner Program.

Our Channel Partner Commission Plan:

- 20 percent commissions on core products for all partner sales*
- Up to 25 percent commissions on core products for qualified master agents
- No annual revenue commitment minimum for agent and dealer partners
- 50 percent of setup fees collected are paid to partners
- Evergreen provisions in all contracts

Telcentris services include:
