

VOXOX BY TELCENTRIS  YOUR BUSINESS. UNIFIED.™

SIP Trunks offer a flexible solution enabling your business to streamline costs and resources, while retaining the quality of service necessary for your voice communication needs.

Why a SIP Trunk Solution?

Telcentris® Trunk lines deliver powerful functionality to your new or existing phone system, and help reduce your phone and Internet costs with competitive rates and one plan for voice and data. Because lines can be easily added and removed as your business needs fluctuate, SIP Trunks enable your business to create a more scalable solution for the growth of your network. Businesses that already have a substantial investment in PBX or Key System equipment can now take advantage of VoIP features and cost savings. Telcentris SIP Trunks are affordably priced per trunk line and offer competitive per minute, bundled and unlimited calling plans.

SIP Trunks are a perfect fit for:

- Dramatically reducing expenses over traditional phone service
- One service for both voice and data over the same connection
- Connecting multiple office locations together worldwide
- Easily managing ongoing additions and changes to your network
- Preserving an investment in existing phone system equipment

Enhanced Features

- Caller ID with Name
- Call Hunt Groups
- Worldwide DIDs
- Fax to Email / Email to Fax
- Call Detail Report via Web Browser
- Discounted International Rates

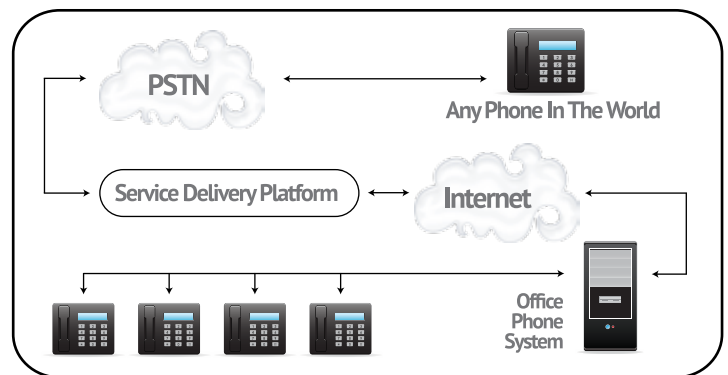

The Bottom Line

SIP Trunking is a smart choice for businesses looking to optimize new or existing phone systems, explore the financial and operational benefits of consolidating their voice and data networks and create a more scalable phone system for their changing needs.
